MEASURING GASKETS

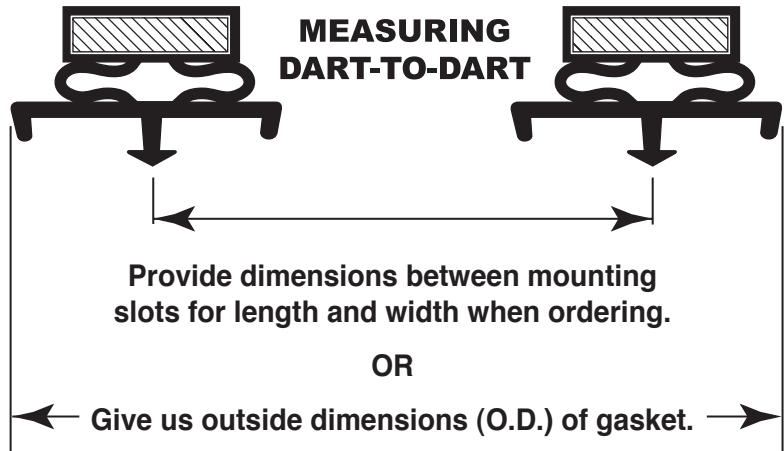

Dart Mounted Magnetic Gaskets:

To order, provide dart-to-dart measurement OR provide the Outside Dimensions (O.D.). Measure the width and height of the gasket you are replacing.

Specify if gasket is 3-sided* or 4-sided**

* 3-sided door gaskets use a separate door sweep, or scraper gasket on bottom (see pages 253-256).

** 4-sided gaskets extend to all four sides of the door.

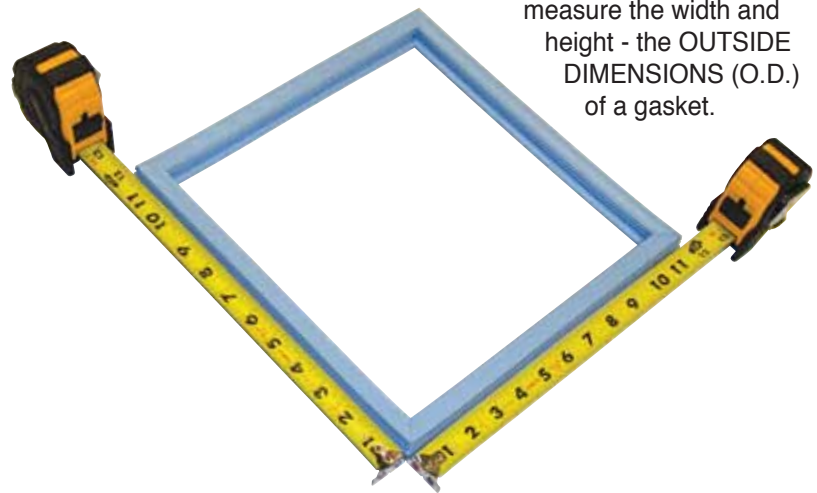

Screw Mounted Magnetic Gaskets & Compression Gaskets:

To order, provide the Outside Dimensions (O.D.). Measure the width and height of the gasket you are replacing.

Specify if gasket is 3-sided* or 4-sided**

* 3-sided door gaskets use a separate door sweep, or scraper gasket on bottom (see pages 253-256).

** 4-sided gaskets extend to all four sides of the door.

Magnetic gaskets (dart mounted and screw mounted) are available in 8 ft. straight lengths.

Some compression and sponge rubber gaskets are available in various lengths up to 100 ft. which are provided on rolls. Shorter lengths are coiled loosely for shipment.

Simply specify per-foot or straight length order number where applicable.
